

# Courier and Delivery

Fleet Management Solution

## Efficiency From Hub to Spoke

These days, business moves faster than ever, and delivery services are met with increasing demand and competition. Transporting timesensitive goods quickly, safely, and reliably is essential to keeping customers happy. Geotab helps you reduce fleet costs, boost onroad productivity, and improve driver safety with high-performance technology that's scalable, flexible, and customizable.

## Business Intelligence for Tangible Results:

- + More on-time deliveries with efficient route planning.
- + Lower insurance premiums and fewer accidents due to improved driver behavior.
- + Better fuel efficiency by reducing fuel-wasting driving practices, such as idling.
- + Lower fleet maintenance costs and less wear-and-tear on vehicles.
- + Greater customer satisfaction as a result of more accurate delivery time estimates.

# Geotab Open Platform for Telematics

## Manage Compliance

- + HOS - Working hours
- + DVIR (Vehicle Inspections)
- + Electronic logs - Reduce paperwork

## Improve Driver Safety

- + Risk & safety reports
- + In-vehicle, proactive coaching with customized messaging
- + Instant accident notifications
- + Monitor seat belt use
- + Detect reverse driving

## Increase Productivity & Customer Service Time

- + Real-time vehicle location with breadcrumb trail detail
- + Create exception rules to improve driver productivity
- + Trip and activity reporting
- + Match drivers to vehicles with Driver ID
- + Dispatch and message drivers dynamically
- + Route optimization

## Expandability

- + IOX Technology
- + Unlimited sensors for temperature, weight tracking, doors, cargo
- + Accelerate accounts receivable
- + Mobile apps
- + Open data integration with SDK

## Optimize Fleets & Cut Fuel Costs

- + Improve fuel economy
- + Lower CO2 emissions
- + Decrease idling
- + Reduce speeding
- + Leverage engine diagnostics
- + Plan and schedule vehicle maintenance

## Geotab GO7 Telematics Device

- + Fast GPS acquisition time
- + Captures rich, second-by-second data
- + Ultra-accurate engine diagnostics
- + High-quality recording

## Do more with your data

- + Dispatch Management & Route Optimization
- + Paperless Invoices & Time Tracking
- + Vehicle Maintenance Management
- + Driver Camera Systems
- + Advanced Collision Prevention
- + Fuel Management
