Food and Beverage

Fleet Management Solution

Deliver More Product In Less Time — With Greater Insight

Businesses in the food and beverage industry must be flexible and efficient at every stage of operations to cope with everchanging market demand and increased competition. Delivering ontime and satisfying customers is paramount. Geotab's fleet management solutions help you protect product quality, comply to food safety standards, and maintain the traceability of goods throughout the supply chain.

Business Intelligence for Tangible Results

+ Ensure timely deliveries with scheduling and route optimization.

+ Maximize fuel efficiency with real-time tracking and detailed reports.

+ Protect food safety during transport with Driver ID and temperature tracking.

+ Schedule maintenance to prevent costly vehicle downtime.

+ Improve driver safety with in-vehicle coaching.

GEOTAB AFRICA
management by measurement

Geotab Open Platform for Telematics

Enhance Productivity & Customer Service Time
