

Real-Time Visibility for Government Fleets

Trusted and Secure Fleet Management Solutions

Many of the largest fleets in Southern Africa and around the world rely on Geotab's data-driven solutions to improve safety, efficiency, and sustainability. Collecting over 900 million points of data each day, Geotab provides critical intelligence to lower fuel costs, reduce maintenance, and improve asset utilization. With a robust ecosystem of partner solutions and apps, Geotab can support the needs of every level of government.

Get the Geotab Advantage:

- + High performance GPS technology
- + One universal device for all vehicle makes and models
- + Active Tracking for true live location tracking
- + Accident detection & notification
- + Implementation management, support & training
- + Web-based MyGeotab software with interactive dashboards and customizable reports
- + Open platform for data integration

Telematics for a Greener Future

Get your fleet ready for the upcoming rule on greenhouse gas (GHG) emissions and fuel economy. Telematics technology helps Light-Duty, Medium-Duty, and Heavy-Duty fleets reduce emissions and increase fuel efficiency, while cutting costs.

- + Idling & fuel consumption trend reports
- + CO₂ emission detection
- + Route optimization
- + Preventive maintenance
- + Compatibility for hybrid and electric vehicles
- + GO TALK™ driver coaching

Geotab Open Platform for Telematics

Security is first priority at Geotab. We continuously review and update our security mechanisms and processes to ensure the highest level of security and privacy for our customers and partners.

Lower Maintenance Costs

- + Predictive maintenance planning
- + Detect engine issues in advance
- + Receive engine diagnostics and alerts
- + Prioritize repairs
- + Maintenance scheduling and notifications

Improve Driver Safety

- + Risk & safety reports
- + In-vehicle, proactive coaching with customized messaging and rules
- + Reduce accidents and minimize risk
- + Monitor seat belt use

Accident Detection & Notification

- + Instant notifications, airbag deployment
- + Detailed second-by-second data
- + Helps prove no-fault to insurance provider

Expandability

- + IOX Technology
- + Driver ID
- + Mobile apps
- + Open data integration with SDK

Reduce Fuel Costs

- + Improved asset utilization
- + Reduce miles driven
- + Reduce unnecessary idling and fuel spend
- + Reduce speeding

Geotab GO7 Telematics Device

- + Fast GPS acquisition time
- + Captures rich, second-by-second data
- + Ultra-accurate engine diagnostics
- + High-quality recording

Do more with your data

- + GO TALK In-Vehicle Driver Coaching
- + Distracted Driving Prevention
- + Driver Camera Systems
- + Report on PTO
- + Advanced Collision Prevention
